

REGULATIONS

COUNCIL REGULATION (EU) No 1180/2013

of 19 November 2013

fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in the Baltic Sea

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Council Regulation (EC) No 2371/2002 ⁽¹⁾ requires that measures governing access to waters and resources and the sustainable pursuit of fishing activities be established taking into account the scientific, technical and economic advice available and, in particular, the report drawn up by the Scientific, Technical and Economic Committee for Fisheries (STECF) as well as in the light of any advice received from regional advisory councils.
- (2) It is incumbent upon the Council to adopt measures on the fixing and allocation of fishing opportunities by fishery or group of fisheries, including certain conditions functionally linked thereto, as appropriate. Fishing opportunities should be distributed among Member States in such a way as to assure each Member State relative stability of fishing activities for each stock or fishery with due regard to the objectives of the Common Fisheries Policy established in Regulation (EC) No 2371/2002.
- (3) The total allowable catches (TACs) should be established on the basis of the scientific advice available, taking into account biological and socioeconomic aspects whilst ensuring fair treatment between fishing sectors, as well as in the light of opinions expressed during the consultation of stakeholders, in particular at meetings with the regional advisory councils concerned.
- (4) For stocks subject to specific multiannual plans, the fishing opportunities should be established in accordance

with the rules laid down in those plans. Consequently, catch limits and fishing effort limits for the cod stocks in the Baltic Sea should be established in accordance with the rules laid down in Council Regulation (EC) No 1098/2007 ⁽²⁾ ('the Baltic Sea Cod Plan').

- (5) In the light of the scientific advice, flexibility in the management of the fishing effort for cod stocks in the Baltic Sea can be introduced without jeopardising the objectives of the Baltic Sea Cod Plan and without causing an increase in fishing mortality. Such flexibility would allow for more efficient management of the fishing effort where quotas are not allocated equally among the fleet of a Member State and would facilitate swift reactions to quota exchanges. A Member State should, therefore, be allowed to allocate to vessels flying its flag additional days absent from port where an equal amount of days absent from port is withdrawn from other vessels flying its flag.
- (6) The use of fishing opportunities as set out in this Regulation should be subject to Council Regulation (EC) No 1224/2009 ⁽³⁾, and in particular provisions concerning the recording of catches and fishing effort and the information on data on the exhaustion of fishing opportunities. It is therefore necessary to specify the codes relating to landings of stocks subject to this Regulation which are to be used by the Member States when sending data to the Commission.
- (7) In accordance with Council Regulation (EC) No 847/96 ⁽⁴⁾, the stocks that are subject to the various measures referred to therein must be identified.

⁽²⁾ Council Regulation (EC) No 1098/2007 of 18 September 2007 establishing a multiannual plan for the cod stocks in the Baltic Sea and the fisheries exploiting those stocks, amending Regulation (EC) No 2847/93 and repealing Regulation (EC) No 779/97 (OJ L 248, 22.9.2007, p. 1).

⁽³⁾ Council Regulation (EC) No 1224/2009 of 20 November 2009 establishing a Community control system for ensuring compliance with the rules of the common fisheries policy, amending Regulations (EC) No 847/96, (EC) No 2371/2002, (EC) No 811/2004, (EC) No 768/2005, (EC) No 2115/2005, (EC) No 2166/2005, (EC) No 388/2006, (EC) No 509/2007, (EC) No 676/2007, (EC) No 1098/2007, (EC) No 1300/2008, (EC) No 1342/2008 and repealing Regulations (EEC) No 2847/93, (EC) No 1627/94 and (EC) No 1966/2006 (OJ L 343, 22.12.2009, p. 1).

⁽⁴⁾ Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).

⁽¹⁾ Council Regulation (EC) No 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy (OJ L 358, 31.12.2002, p. 59).

- (8) In order to avoid interruption of fishing activities and to ensure the livelihood of Union fishermen, it is important to open the fisheries covered by this Regulation as from 1 January 2014. For reasons of urgency, this Regulation should enter into force immediately after its publication,

HAS ADOPTED THIS REGULATION:

ANNEX II

FISHING EFFORT LIMITS

1. Member States shall allocate the right to vessels flying their flag and fishing with trawls, Danish seines or similar gear of a mesh size equal to, or larger than, 90 mm, with gillnets, entangling nets or trammel nets of a mesh size equal to, or larger than, 90 mm, with bottom set lines, longlines except drifting lines, handlines and jigging equipment, to be up to:
 - (a) 147 days absent from port in ICES subdivisions 22-24, with the exception of the period from 1 to 30 April when Article 8(1)(a) of Regulation (EC) No 1098/2007 applies; and
 - (b) 146 days absent from port in ICES subdivisions 25-28, with the exception of the period from 1 July to 31 August when Article 8(1)(b) of Regulation (EC) No 1098/2007 applies.
 2. The maximum number of days absent from port per year for which a vessel may be present within the two areas referred to in point 1(a) and (b) fishing with the gear specified in point 1 may not exceed the maximum number of days absent from port allocated for one of those two areas.
 3. By way of derogation from points 1 and 2, and where efficient management of fishing opportunities so requires, a Member State may allocate to vessels flying its flag the right to additional days absent from port where an equal amount of days absent from port is withdrawn from other vessels flying its flag that are subject to effort restriction in the same area and where the capacity, in terms of kW, of each of the donor vessels is equal to, or larger than, that of the receiving vessels. The number of receiving vessels may not exceed 15 % of the total number of vessels of the Member State concerned, as indicated in point 1.
